# Emme in the world

# Emme Today - Company

**Emme is an innovative and dynamic Company!**

*Research, innovation, and competence are the tools that make EMME ANTINCENDIO s.r.l. the undisputed leader in designing, production, and sale of fire-extinguishing systems.*

# Emme History

**45 YEARS IN THE MARKET: OUR BEST WARRANTY !**

# Emme History

For over 40 years, Emme Antincendio has made serving and protecting safety its mission, producing a huge range of products with the expertise and reliability of a company that, as far back as **1982, was the first to pass the ministerial tests for extinguisher approval** and even then to be counted as absolutely cutting-edge in the field.

Looking back on our company's 45 year history, we realise how, the firm has evolved from an average production company into a leading company at national and international level, **thanks to the quality level that has remained unchanged over time.**

# Emme History

**Today, the company has a production area of over 3,000 square meters, which it is doubling for greater efficiency and a logistics system dedicated to sorting materials destined to domestic and European markets.**

**The company was founded and developed with the intention of producing extinguishers never compromising, at the same time, the quality and always observing the highest standards of efficiency and durability.**

**In recent years, with the development and globalisation of the market, Emme Antincendio, strengthened by the quality of its products and its experience, has invested in new models for the European market , gaining official certification for more than 100 new extinguisher models.**

# Quality Certifications

## Bureau Veritas Certification

ISO 9001

**BUREAU VERITAS**  
Certification

N° IT258822

**Voluntary Certificate Product**

**BUREAU VERITAS ITALIA S.p.A.**  
**Certification**

Defined Features:

- Purchase of Fire-Fightings agents of European Origin
  - Assembly line of extinguishers performed in the establishment
- EMME ANTINCENDIO S.r.l. Via del Molino, 40 - Corsalone (AR) - ITALIA

**Certificate n. 876/001**

**Certified Fire Extinguisher in accordance with the disciplinary DP-01 Rev.3**

**The voluntary Product Compliance Certification** intends to position, enhance, and differentiate Emme's products on the global market, guaranteeing customers products designed, manufactured, and tested at various stages of the production cycle.

**The Product Specification for Defined Characteristics** for sample testing is implemented in order to define the requirements for assembling extinguishers, using fire extinguishing agents produced by primary suppliers with plants located in an EU country, and checking the tightening torque of the tank valve of portable and mobile powder, foam, and CO2 fire extinguishers, built in the factory at 40 Via Del Molino in Corsalone (Ar), for Product Certification by an independent body.

**Our company goal is to enhance the high safety level of our products,** create added value, highlight the **qualitative characteristics of extinguishing agents**, purchased from Italian and European industry leaders, and **strengthen the Emme brand**, generating confidence and transparency with its customers. The Product **Conformity Certification** will be highlighted on Emme Antincendio products by applying a certified product label in accordance with Specification DP-01 rev.4
